香港资讯科技学院
助香港建立资讯科技人才库
Hong Kong Institute of Information Technology (HKIIT) cultivates IT talent pool in Hong Kong

VTC于去年11月成立香港资讯科技学院（HKIIT），致力培育资讯科技人才，透过提供多元化课程，如人工智能、网络安全、云端运算及数据科学等，装备未来技能。同时积极与业界紧密合作，建立策略性伙伴关系，提升在职人士的数码技能，促进本地以至大湾区人才培育及发展。

与业界联盟　推进人才培育及行业发展

自成立以来，HKIIT与多间知名企业签订合作协议，共同培育资讯科技人才，当中包括联想、阿里云、自动系统（香港）有限公司、中国工商银行（亚洲）及IBM等。透过与业界合作，为HKIIT学生提供与业界接轨的课程及更丰富的学习资源及实习机会，助他们掌握行业知识及新兴技能，缔造专业发展机遇。

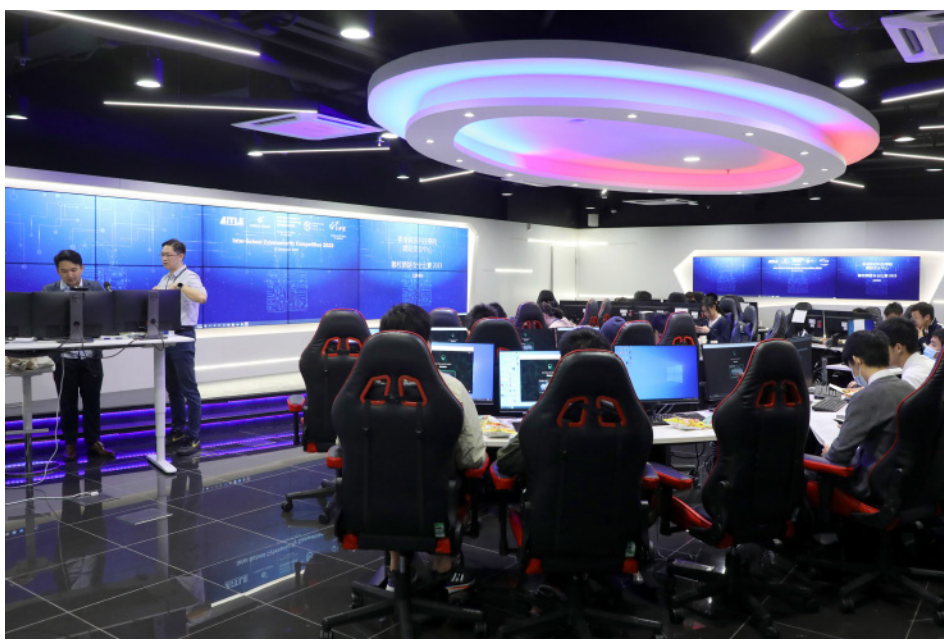

HKIIT业界网络广濶，学院与联想等多间国际知名企业签订合作备忘录，携手培育资讯科技人才。
HKIIT has a wide industry network and has signed MoUs with several renowned international companies such as Lenovo, leveraging this extensive industry network to nurture IT talents together.

多元新兴科技课程　助行业「SkillsUP」

科技融入各行各业，人才培训成为企业的当务之急。为了协助企业、行业从业员及在职人士掌握最新技术及数码技能，HKIIT推出了名为「SkillsUP」的在职培训服务，为企业提供技能再培训及技能提升等课程，促进各行业的数码转型。目前学院已为在职人士提供在职进修的机会，覆盖广泛领域，主题包括「资讯安全专业证书」及「ChatGPT智能对话引擎师证书」等，以提升行业竞争力。HKIIT亦致力发展成为本港，以至粤港澳大湾区的IT培训及考试中心，为资讯科技行业壮大人才库。

作为本地首间资讯科技专科专上学院，HKIIT亦积极举办及支持各项资讯科技活动，以激发青年对资讯科技的兴趣。其中包括年度游戏开发界年度盛事「Global Gam Jam Next Hong Kong」，吸引了超过40间中学的同学参加。而GDG DevFest亦汇聚逾千名来自不同行业的科技爱好者，共同分享心得，与志同道合的科技社群成员交流互动。

展望未来，HKIIT将继续深化与业界的联系及拓展合作网络。除了於4月推出了首个「与数码领袖对话」系列讲座，HKIIT将於6月举办一连两日活动，与政府、业界伙伴、学界及大众一同见证HKIIT正式成立，标志院校与多方合作，培育面向未来的资讯科技人才。

HKIIT 开办的在职培训课程，获业界及行业从业员支持，反应热烈。
HKIIT has received enthusiastic responses from various companies and industry practitioners for its in-service training programmes.

VTC established the Hong Kong Institute of Information Technology (HKIIT) in last November, with the aim to cultivate information technology talents in Hong Kong by offering diversified programmes such as Artificial Intelligence (AI), Cybersecurity, Cloud Computing and Data Science to equip individuals with future-ready skills. At the same time, HKIIT actively collaborates with industry partners, establish strategic partnerships, strengthen the digital skills of working adults and promote talent development in both the local and Greater Bay Area.

HKIIT於2月举办游戏开发界年度盛事，吸引众多同学参加，并提升他们对资讯科技的兴趣。
HKIIT organises the annual game development event "Global Game Jam Next Hong Kong" in February, attracting numerous students participants and enhancing their interest in information technology.

Partnering with industry for growth

Since its establishment, HKIIT has signed multiple Memorandums of Understanding (MoU) with a multitude of renowned companies to strengthen the IT talent pool, including Lenovo, Alibaba Cloud, Automated Systems (H.K.) Limited, Industrial and Commercial Bank of China (Asia) Limited and IBM. Through these partnerships, HKIIT develops programmes that align with the industry, providing students with a wealth of learning resources and internship opportunities, enabling them to acquire industry knowledge and emerging skills while creating opportunities for professional development.

主题为「人工智能及数码人文学」的数码领袖对话，吸引大批业界人士参与。
The first digital leadership dialogue with the theme of "Artificial Intelligence and Digital Humanities", receives strong support and positive feedback from industry.

Diversified emerging technology courses for industry to "SkillsUP"

With technology integrated into different industries, training new talents have become a pressing-need for businesses. To assist companies, industry practitioners and working adults in mastering the latest technologies and digital skills, HKIIT has launched an in-service training service called "SkillsUP" to offer reskilling and upskilling programmes to foster digital transformation for companies across various industries. Currently, the institute has been providing a number of in-service continuing education opportunities for working adults. The covered topics include "Professional Certificate in Information Security" and "Certificate in Prompt Engineering for ChatGPT", etc., which aims to enhance industry competitiveness. HKIIT is also committed to becoming a prominent IT training and examination hub in Hong Kong and the Guangdong-Hong Kong-Macao Greater Bay Area to help expand the talent pool in the IT industry.

As the first dedicated IT tertiary institute in Hong Kong, HKIIT actively organises and supports a diverse range of IT-related events to inspire the youths' interest. Among all includes the annual event in the game development industry "Global Game Jam Next Hong Kong", which has attracted participation from over 40 secondary schools. Meanwhile, GDG DevFest also brought together more than a thousand of technology enthusiasts from different industries to share ideas and interact with like-minded individuals in the tech community.

Looking ahead, HKIIT will continue to deepen its connections with the industry and expand its collaboration network. In addition to launching the series of "Digital Leaders Dialogue" talks in April, HKIIT will hold a two-day event in June with guests from the Government, industry, schools and the public to witness the official establishment of HKIIT. This event symbolises the institute's collaboration with multiple stakeholders in nurturing future IT talents.
