VTC participated in the “Information Expo on Multiple Pathways 2025” organised by the Education Bureau, which took place from 23 to 24 May 2025, at the Hong Kong Convention and Exhibition Centre. The exhibition brought together nearly 30 post-secondary institutions and organisations, providing secondary school students, parents, and teachers with the latest information on further studies and employment, helping them plan their future development direction.

During the two-day event, VTC set up an exhibition booth to showcase its various member institutions and highlight the unique features of different programmes and the development and employment prospects in related industries. The booth also showcased the flexible and diverse pathways available in Vocational and Professional Education and Training (VPET), along with practical teaching approaches aligned with industry needs, helping young people to plan effectively for their further studies and career pathways.
