As an important talent base for social welfare and early childhood education, VTC was invited by Connecting Hearts Academy, the Guangdong Provincial Social Organisations Federation and the Guoqiang Public Welfare Foundation (Hong Kong) to share experience in nurturing social welfare talent at the Greater Bay Area Social Welfare Development Exchange Programme, with a view to jointly promoting innovation and development in social welfare services across the region.

The programme brought together social welfare professionals from across the Greater Bay Area to foster deeper exchanges between Hong Kong and the Mainland through seminars, group discussions, site visits and experience-sharing. As guest speaker, VTC Executive Director Mr Donald Tong highlighted the achievements of the Childcare, Elderly and Community Services Discipline in nurturing professionals for the social welfare sector. He also introduced several community projects co-developed with NGOs, showcasing how VTC students and teachers apply their professional skills for social good and demonstrating the social value of VPET.
