

Mr Albert LAM

Co-Founder and CEO
Novelte Robotics Limited

Mr Albert Lam, Co-Founder and CEO of Novelte Robotics, has been a professional technologist since 2004. Albert graduated from the University of Hong Kong with a Bachelor Degree of Engineering in Industrial and Manufacturing Management System Engineering. In 2006, Albert joined Motorola's mobile technology team and participated in developing the first generation of mobile push technology now widely used in smartphones. In 2019, Albert founded Novelte Robotics, providing end-to-end robotics solutions to facility management and medical sectors. Under Albert's leadership, Novelte Robotics was the first robotics company in Hong Kong awarded the SDG Enterprise Awards in 2021 for its contribution to achieving sustainable development goals. As an AI and robotics leader in the property management and medical fields, Albert is well experienced in automation with intelligence and digital transformation. Albert believes AI, robotics, and the use of 5G will bring the world to a new era, resolving the increasing manpower costs for repetitive works.

Mr Simon YU

Co-Founder and President
PropTech Institute

Mr Simon Yu is the Co-Founder and President of PropTech Institute, a non-profit organisation committed to accelerating the adoption of technology in the built environment. Simon is also an Associate Director at CBRE, the world's leading commercial real estate services and investment firm. With a strong track record in capital markets, Simon has advised on and executed over HK\$8.5 billion in real estate transactions, demonstrating deep expertise in investment advisory, transaction structuring, and market intelligence across the APAC region. Since the establishment of the PropTech Institute in 2019, Simon has been playing a pivotal role in cultivating a dynamic ecosystem that connects startups, corporates, and industry leaders to drive digital transformation and sustainable practices in Hong Kong and the Greater Bay Area. Simon's leadership has been instrumental in promoting the integration of AI, data analytics, and green building solutions into real estate strategies. His vision is to create a smarter, more efficient, and sustainable property sector that benefits all stakeholders. In addition to his professional endeavors, Simon actively contributes to cross-cultural and educational initiatives. Currently, he serves as President of the Western University Alumni Association in Hong Kong and Co-Chair of the Property Committee at the Canadian Chamber of Commerce.
